

## update on viewing gallery photos

Contributed by Hugh Martell

Greetings,

Just a quick update on viewing photos in the galleries. Right now, the latest and more recent photos can be viewed on "gallery2". If you click on the word "slide show", the images will cycle through in a sequence. But to view each image at your own pace and be able to read any captions which help tell the story, click on the small photo you see. This opens up a field of small photos. Click on any of these and the photo gets big, and on the bottom you will see any written captions.

Have fun!

Hugh
